# Harshad Agrawal

Pune, MH | +91 7622871384 | harshad.agrawal2005@gmail.com | LinkedIn |GitHub | Portfolio

## Summary

Machine Learning and AI engineering student with hands-on experience building LLM-powered systems, ML pipelines, and FastAPI-based backend services. Experienced in developing, integrating, and testing data-driven models for real-world applications. Strong foundation in algorithms, machine learning, and software engineering.

## Work Experience

**AI Engineer Intern | Akiyam Solutions | Dec 2025 – Present**

- Built and maintained FastAPI-based backend services supporting internal AI tools and ML workflows.
- Developed LLM-powered agents using LangGraph and Retrieval-Augmented Generation for automated analysis tasks.
- Designed and optimized prompt workflows to improve accuracy and consistency of AI outputs.
- Implemented end-to-end model inference pipelines for rapid prototyping of machine learning features.
- Integrated frontend interfaces with backend APIs to enable seamless data and model interactions.
- Collaborated with cross-functional teams to test, debug, and improve system reliability.

## Education

**Symbiosis Institute of Technology, Pune** 2024 – Present

*B.Tech in Artificial Intelligence and Machine Learning*

## Projects

**MindMetrics — Mental Health Data Analysis**

- Developed data-driven scoring models for mental health assessment.
- Processed and analyzed structured datasets using Pandas and Scikit-learn.
- Built reusable pipelines for feature engineering and statistical evaluation.

Tech: Python, Pandas, Scikit-learn

**Exoplanet Classifier – NASA Space Apps Challenge**

- Built machine learning models to classify potential exoplanets using TESS and K2 datasets.
- Performed data cleaning, feature extraction, and model evaluation.
- Contributed to team-based problem-solving under time constraints.

Tech: Python, Machine Learning, Scikit-learn

## Technical Skills

**Programming:** Python, C, R, HTML, CSS
**Backend:** FastAPI, Flask, REST APIs
**Machine Learning:** Scikit-learn, RAG, LangChain, LangGraph, ReAct Agents
**Data:** Pandas, Matplotlib, Excel
**Databases:** MySQL, MongoDB, SQLite
**DevOps/Tools:** Git, GitHub, GitLab, Docker, Linux, AWS
**Core CS:** DSA, OOPS, DBMS, OS, Computer

## Awards, Honors and Certifications

- Oracle Cloud Infrastructure 2025 — Multicloud Architect Professional
- OCI Foundations Associate 2025
- Full-Stack Generative & Agentic AI with Python (Udemy)
- SQL (Basic & Advanced) — HackerRank
